ReSound GN

GN Making Life Sound Better

A photograph of a man and a woman hiking on a dirt trail. The man is wearing a blue jacket and a yellow backpack, and the woman is wearing a green jacket. They are standing on a path that winds through a lush, green mountain landscape. In the background, there are more mountains and a valley filled with greenery. The sky is overcast.

ReSound sound philosophy

More of the sounds you want to hear

At ReSound, our sound philosophy has always been to mimic the natural hearing experience as closely as possible.

Unfortunately, most hearing aids attempt to block out sounds from the side and back completely making it difficult to recognize where sounds are coming from or switch your focus to other important sounds.

ReSound hearing aids, on the other hand, take full advantage of your brain's natural ability to focus on the sounds that are important to you while maintaining the ability to hear all around you.

Binaural Directionality III does just that by using ear-to-ear technology. This allows your hearing aids to work together to more accurately mimic how our ears naturally take cues from each other to fill in the entire sound scene. The result is even better awareness of environmental sounds and where they are coming from.

Spatial Sense supports your ability to detect where sounds are coming from by emulating the way the outer ear channels sound so you can experience a more natural sense of your surroundings.

Introducing ReSound LiNX Quattro

Our newest hearing aid is beyond compare with richer sound quality, longer battery life, an unrivaled full spectrum of streaming, support and personalization, and the world's most advanced rechargeable solution - all in one product.

* Actual size

ReSound LiNX Quattro™

Brilliant sound experience

CLEARER SOUNDS

ReSound LiNX Quattro utilizes the full microphone range allowing sound to be processed in a cleaner way - free of distortion.

+

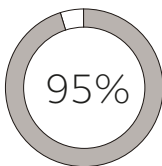

FULLER SOUNDS

ReSound LiNX Quattro provides you with a larger range of sounds and access to nuances in tones that were previously unavailable.

=

RICHER EXPERIENCE

With improved clarity and access to more sounds, coupled with a stronger wireless signal, your favorite environments become richer with ReSound LiNX Quattro.

ReSound LiNX Quattro is preferred 95% of the time for music listening, compared to other premium hearing aids.*

ReSound LiNX Quattro

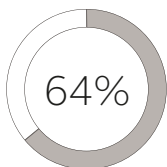

Other premium Made for Apple hearing aids

ReSound GN

Unrivaled full spectrum of streaming

ReSound LiNX Quattro provides you with an exceptional streaming experience from almost any audio source. And with increased power, we have virtually eliminated any lag time when streaming directly into the hearing aids or through a ReSound wireless accessory.

When streaming directly from an iPhone, listeners preferred the sound quality with ReSound LiNX Quattro at least 64% of the time.*

The world's most advanced rechargeable solution

ReSound LiNX Quattro now introduces the most advanced rechargeable hearing aid – with a lithium-ion battery that is completely sealed for protection. With its small, discreet size and long-lasting battery, you get power that lasts more than a full day – without having to fiddle with any batteries.

Battery status is easy to monitor with the ReSound Smart 3D app and the LED lights on the charging case indicate the power status for both your hearing aids and the charger.

**FULL CONFIDENCE WITH
A COMPLETE CHARGE**

At night, simply place your hearing aids in the inductive, easy-to-use charging case to prepare for the next day. If you do forget to charge, the case’s built in battery holds three full charges of power, giving you the freedom to charge anywhere.

CHARGING TIME	HOURS OF BATTERY LIFE
3 hours =	30 24 <small>with 50% streaming time</small>
1 hour =	16
30 minutes =	8

ReSound LiNX 3D™

Changing the way you think about hearing aids

You'll hear more than you ever imagined with ReSound LiNX 3D™. On the beach or on the phone, you can enjoy connecting to the world around you with crystal clear sound.

You can use your ReSound LiNX 3D hearing aids just like wireless stereo headphones. And you'll get a new level of control over your hearing experience – wherever you are.

All of this in a hearing aid that is durable, comfortable and virtually invisible on the ear.

Now you can hear more, do more and be more than you ever thought possible.

With ReSound LiNX 3D you'll be better at identifying speech in noise and be able to hear more sounds around you - all in a full family of hearing aid styles for you to choose from.

Hear more than you ever thought possible

Imagine talking to your colleagues against a backdrop of chopping knives and sizzling pans. With ReSound LiNX 3D, you can experience more of the environment around you while staying focused on speech.

“It’s super
clear sound”

Rune Linderoth, 42
ReSound ENZO 3D user

ReSound ENZO 3D™

Rely on it all day long

All day, every day – you can be sure that your ReSound ENZO 3D hearing aids will keep up with your lifestyle. As the smallest hearing aid for severe-to-profound hearing loss, ReSound ENZO 3D is discreet and gives you 12 days of battery life, even while streaming calls and music for up to four hours per day*.

*Applies to ReSound ENZO 3D BTE 98

70%
better speech*
understanding
with FaceTime®

Understanding speech during phone calls is 70% better with FaceTime video and voice streaming compared to a regular call, making it easier to follow phone conversations more comfortably.

“It’s really amazing that I can stream directly to the hearing aids”

Rune Linderoth, 42
ReSound ENZO 3D user

Works like wireless headphones

With Made for Apple® technology, you can stream phone calls, music and more from your iPhone, iPad® or iPod touch® directly to your hearing aids – just like wireless stereo headphones.

And if you have an Android or any Bluetooth-enabled phone, you can still stream calls, music and more with a discreet ReSound Phone Clip+.

ReSound Smart 3D™ app

Support and Personalization

Tailor your hearing experience to get the most out of your hearing aids with the ReSound Smart 3D app.

ReSound hearing aids automatically adjust to your environment, but you can personalize the details of your hearing experience even further.

With ReSound Smart 3D app, you will have access to:

- Sound Enhancements in a variety of environments
- Save Favorites and GeoTag Locations
- Find My Hearing Aids functionality
- Hearing aid advice and tips for sound optimization
- Rechargeable battery status updates and notifications with ReSound LiNX Quattro RIE 61

Sound controls
available on
Apple Watch®

Always discreet and reliable

Every component of ReSound products, inside and out, is fully coated with iSolate nanotech to stay sealed and protected against dirt, moisture, dust or earwax. So you can step out into the rain or onto the field with total confidence.

Wireless accessories

ReSound has an entire portfolio of wireless accessories that work together as an intelligent system to help extend your hearing over a distance and in noisy environments. For example, the TV mutes when you receive a phone call and the sound returns automatically when you hang up.

ReSound Micro Mic and Multi Mic

sits on the table or is clipped onto a person's clothing to stream sound directly to your hearing aids to improve hearing in noisy situations.

ReSound Phone Clip+

gives you more freedom, comfort and control while streaming phone calls, music or sound from your Bluetooth-enabled phone.

ReSound TV Streamer 2

streams stereo sound directly to your hearing aids, so you can listen at the volume that is comfortable for you.

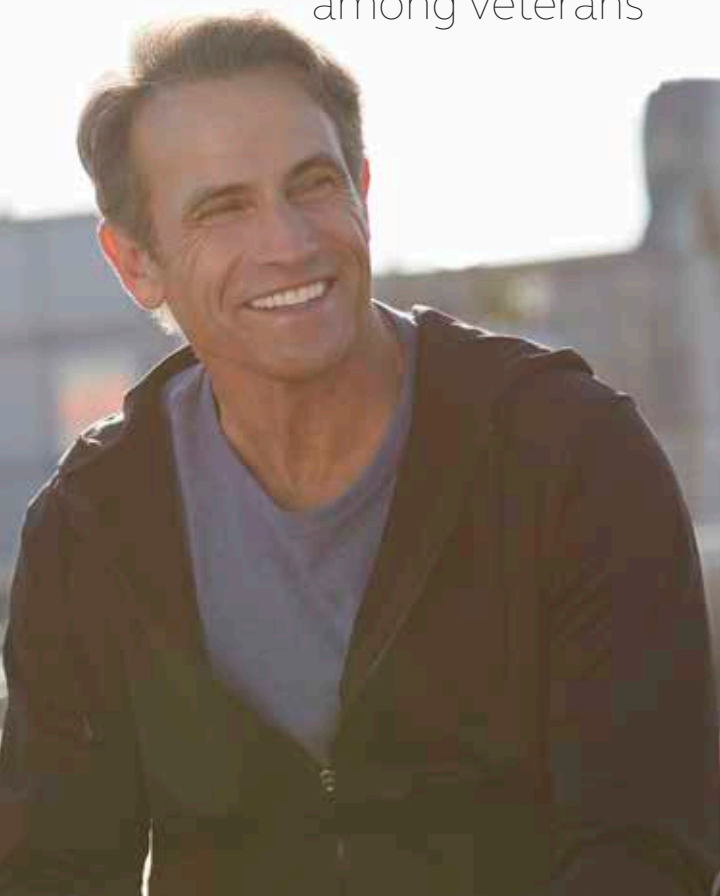

ReSound Remote Control 2

allows you to adjust the volume or mute your hearing aids, switch programs, and see all your settings at a glance.

Tinnitus is the
#1 service-
related injury
among veterans

Find relief from tinnitus with ReSound

Tinnitus cannot be cured. But it can be managed.
If you suffer from tinnitus, ReSound hearing aids
provide you with new, smart tools for finding relief.

What is tinnitus?

From ringing and chirping to whooshing and clicking, tinnitus takes many forms. But most people refer to tinnitus as ‘ringing in the brain’. For some, this ringing comes and goes without causing much bother. But for others, it is a constant noise that has a negative impact on daily life.

Manage your tinnitus

Using ReSound LiNX Quattro, ReSound LiNX 3D and ReSound ENZO 3D helps change the way you respond to tinnitus by diverting your attention away from it with soothing background sounds. And, with the ReSound Smart 3D app, you can adjust these sounds, or choose from a range of sounds from nature to find comfort from your tinnitus:

Tinnitus Tuner

Find a personalized setting that provides you with relief from your tinnitus. Using the tuner to control the pitch and modulation of the sound in order to fine-tune the sound therapy that works best for you.

Nature Sounds

Try out the six pre-installed nature-inspired sounds, including ‘Shoreline’ and ‘Beach Surf’, to find out which one works best for you.

The Relief™ app

Direct audio streaming from iPhone, iPad and iPod touch gives you direct access to all the sound therapy apps available on the App Store, including ReSound Relief app, a multisensory app that uses a combination of customizable soundscapes and guided relaxation exercises to help distract you from your tinnitus.

People with hearing loss are at the heart of everything we do because we know they're placing their trust in us. This is why we've been pioneering innovative new technologies, with consistent quality, for over 150 years to help people feel more involved, connected and in control, transforming their lives through the power of sound. Available exclusively through audiologists and hearing care professionals.

ReSound is part of the GN Group – pioneering great sound from world-leading ReSound hearing aids to Jabra office headsets and sports headphones. Founded in 1869, employing over 5,000 people, and listed on NASDAQ OMX Copenhagen, GN makes life sound better.
